EvansMDS Young Investigator Award

\$125,000 per year for up to two years

Request for Applications

**Submission Deadline:
Jan. 31, 2018**

EvansMDS Young Investigator Award

Founded in 1984, The Edward P. Evans Foundation is a non-profit Charitable Trust dedicated to funding research on Myelodysplastic Syndromes (MDS) through its EvansMDS initiative. We fund and promote collaboration among leading investigators working on the most promising science so that we might discover new knowledge that will enable cures for MDS.

The Edward P. Evans Foundation has created the *EvansMDS Young Investigator Award* to help develop the next generation of research leaders who will blaze a path toward finding these cures. We are targeting support for promising candidates committed to the study of the biology, pathogenesis, and treatment of MDS as they make their transition to independent investigators. We recognize that securing independent funding is often challenging during this period of career development. Our goal is to facilitate this transition and promote the entry of new investigators into the MDS field. We are offering \$125,000 per year for up to two years to defray the costs of salary and supplies as well as introduction of the successful recipients to the growing community and fellowship of MDS investigators supported by EvansMDS.

We do not place any exclusivity restrictions on the funding of this award. As an additional incentive, we offer recipients maximal flexibility to apply for, and receive additional awards from EvansMDS or other parties during the period of *EvansMDS Young Investigator Award* funding.

Candidate Investigators – Eligible candidates include outstanding researchers conducting innovative research under the guidance of an established Mentor. Candidates should be able to demonstrate how this funding, for the limited period of one to two years, will help to advance their project, idea, or research laboratory to a point where they can secure their transition to an independent investigator. The candidate should be an early career (typically within 8 years of completing their graduate degree) physician/scientist (MD, PhD, or MD-PhD), currently in a non-tenure track (or equivalent) position with a university, hospital or other recognized 501(c)(3) non-profit institution.

The Foundation's goal is to support the entry of the promising new talent into the MDS research community; these requirements should be viewed as guidelines. The Foundation welcomes direct engagement regarding the suitability of any promising candidates for which these guidelines may require further discussion.

Candidate Mentors - *Candidate Mentors* should be active investigators working at the cutting edge of basic, translational, or clinical research in MDS.

Application process:

Applicants for an *EvansMDS Young Investigator Award* should submit collaboratively with their Mentor. The application will consist of the following documents, which the Foundation will share with a review panel comprised of outside MDS experts:

1. *Application Form* signed by an authorized representative of the *Candidate Investigator's* institution.
2. Letter from the *Candidate Investigator* detailing how this funding will help to advance his/her career to a point where (s)he will be able to transition to an independent investigator. This should consist of the following:
 - a. Introduction and career narrative (up to 2 pages)
 - b. Research plan (up to 2 pages)
3. Letter from the *Candidate Mentor* recommending the *Candidate Investigator* for this award and describing the contributions that the *Candidate Mentor* has made toward training successful independent investigators.
4. Two additional letters of recommendation for the *Candidate Investigator*, at least one of which must be from an institution other than the *Candidate Investigator's* current institution.
5. Proposed high-level budget for use of funds (e.g., salary, supplies, travel)
6. NIH Bio sketch for *Candidate Mentor*
7. NIH Bio sketch for the *Candidate Investigator*

Applications are due **January 31, 2018** and will be reviewed by a panel of MDS experts and the Foundation. All documents must be submitted in electronic form, in a single pdf file, by email, to grants@epefoundation.org.

Candidate Investigators who are approved for this award will be notified around the end of March. Funds will be paid to the Candidate Investigator's institution for use by the Investigator before **July 1, 2018**.

Edward P. Evans Foundation Grant Application

TITLE OF RESEARCH PROJECT OR PROPOSED RESEARCH PROGRAM

APPLICANT INFORMATION

Applicant/Principal Investigator:	Individual authorized to sign on behalf of the Institution	Fiscal Officer
_____ Name: Last, First, Middle Initial, Degree	_____ Name: Last, First	_____ Name: Last, First
_____ Title	_____ Title	_____ Title
_____ Institution	_____ Institution	_____ Institution
_____ Department	_____ Department	_____ Department
_____ Mailing Address	_____ Mailing Address	_____ Mailing Address
_____ City, State, Zip	_____ City, State, Zip	_____ City, State, Zip
_____ Telephone	_____ Telephone	_____ Telephone
_____ Email	_____ Email	_____ Email

PROJECT INFORMATION

Are human subjects involved with this grant?

YES _____ NO _____

If yes, Exemption Number: _____

Or IRB Approval Date: _____

Assurance of Compliance Number: _____

Are vertebrate animals involved with this grant?

YES _____ NO _____

If yes, IACUC Approval Date: _____

Or Animal Welfare Assurance Number: _____

Edward P. Evans Foundation Grant Application

CERTIFICATION AND SIGNATURES

Application is hereby made to the Edward P. Evans Foundation for a Research Grant.

Total amount requested: \$ _____ (per period)
Period: _____, 2018 – _____, 2019
month, day month, day

The undersigned reviewed this application for an Edward P. Evans Grant Award and are familiar with policies, terms and conditions of the Foundation concerning this research support and accept the obligation to comply with such policies, terms and conditions.
